

NEW PRESIDENT TO GUIDE PENTA
Petko Vlaytchev, P.E. has been promoted as President of
PENTA Engineering Corporation

PENTA Engineering Corporation announces the promotion of Petko Vlaytchev, P.E. to President of PENTA Engineering Corporation effective April 1, 2020. This promotion comes after Mr. Vlaytchev's successful tenure as Vice President of Engineering, and his 25-year professional career with PENTA.

During that 25-year period, Mr. Vlaytchev assumed roles of increasing responsibility including Sr. Structural Engineer, Project Manager, Structural Department Manager and most recently Vice President of Engineering. He has consistently delivered successful projects for PENTA's clients while meeting PENTA's high technical standards. As Vice President, he has guided engineering operations including PENTA India's engineering team and integrating new state-of-art engineering technologies that have provided positive

year-over-year results for PENTA.

Founders Francisco Benavides and Subhash Mohan wanted to ensure that the next leader at PENTA will be someone of impeccable character, high integrity, proven technical proficiency and fully committed to PENTA's continued growth through technical excellence and financial success. According to Subhash Mohan, "Petko Vlaytchev embodies these ideals having amply demonstrated them during his 25 years at PENTA and has our full confidence in his ability to lead PENTA into the future."

Mr. Vlaytchev earned Bachelor and Master Degrees in Structural Engineering from the Higher Institute of Architecture and Civil Engineering in Sofia, Bulgaria. He met his wife Ellen when she was a project manager at PENTA, and together are proudly raising three wonderful daughters. He enjoys soccer, car racing, sailing, travel, drawing and music.

PENTA Engineering Corporation is an international, multidisciplinary engineering firm providing comprehensive consulting and design/build solutions to the cement, lime, industrial minerals, mining, coal ash, frac sand and fertilizer industries.

Since 1986, our customers have trusted us with their most important industrial plant expansions, modifications, upgrades, and Greenfield projects. Customers have come to rely on PENTA for innovative and cost-efficient solutions.
